

Logging In

Quick Start Guide

Logging into CompHub is quick and easy. Remember to keep your cell phone handy if you're logging on from a PC. CompHub makes use of a concept called two-factor authentication to keep your account safe. CompHub presents users with a crisp, easy to use log-in page.

2 To ensure the proper user is logging in, you must confirm by entering a code delivered by Text Message or Automated Phone Call .

1 Enter your username and password created during registration and click/tap Sign in .

Process	Activity	Claim Number	Hearing Date	Case Creation Date	Activity Due Date	Case Id
★ ⓘ 🔍 Claim	● Complete and submit the claim	W200320		09/06/2022 11:50 am	10/19/2022 11:50 am	W200320

3 Welcome to the CompHub Inbox!

Navigating the Inbox

Quick Start Guide

The Inbox is essentially CompHub's landing page (presented to the user upon login). You can think of the inbox as your "Homepage". You can initiate processes, view your workload, and edit settings all from this page.

The inbox displays all of your active processes and their pending activities

If you know your Claim Number or "Case ID" you can type it directly into the search bar to find information regarding the Claim and any processes you have access to.

The sidebar contains a collapsible section where you can view all your cases (active processes) by subcategory and view a count of your cases.

A count of each process' status based on activity due dates (e.g. filing deadlines and Commission business rules) is displayed in the bottom left hand corner. You can click any of the three icons to filter the inbox view to only display processes with the selected status.

Click/Tap your initials in the top right hand corner to access Accessibility Settings (Default Font Size), General Information, and most importantly to log out at the end of your session.

Starting a Process

Quick Start Guide

Processes are initiated through the Inbox. It's as simple as selecting the process you would like to begin and entering the required information on the Start Form.

The screenshot shows a dark green header bar with two buttons: 'Inbox' (with a briefcase icon) and 'Start New Action' (with a briefcase icon and a dropdown arrow). Below the header is a list titled 'Recent processes' with a clock and document icon. The list contains five items, each with a briefcase icon: 'Claim', 'Claim at a Glance', 'Medical Claims', 'Manage Voc Rehab Registration', and 'File/Withdraw Issues'.

Clicking/Tapping "Start New Action" will automatically bring up the processes you've used in the past. Click/Tap on a process name to initiate it.

The screenshot shows a search interface with a black search bar at the top containing a magnifying glass icon and the text 'Q |'. Below the search bar is a list titled 'All processes' with a clock and document icon. The list includes 'Start New Action', 'Administrative', 'Auto Practitioner Notify', 'Claims', 'Hearings', 'Profile', and 'Role Request'.

You can also Click/Tap the Clipboard Icon to view a categorized list of all processes or search for one by typing directly into the space provided.

Start New Action

The screenshot shows a 'Start New Action' form with a 'Reset' button, a 'Claim Number:' label, a checked 'Advanced' checkbox, and a 'Search' button. Below the buttons is a text prompt: 'Use the following fields to find a matching Claim. The search must resolve to exactly one match; otherwise you'll need to provide the Claim Number instead.' The form includes input fields for 'Claimant First Name:', 'Claimant Last Name:', 'Last 4 of SSN:', and 'Injury Date:'. The 'Injury Date' field has a date picker icon. Below the input fields is a 'Results' section with a 'No records' message and a 'Continue' button.

Different processes may have different start forms, but they generally are designed with the objective of identifying the underlying Claim.

Start New Action

The screenshot shows a 'Start New Action' form for a 'Claim Inquiry' process. It features a 'Claim Inquiry' section header, a text prompt: 'You must enter two pieces of information in order to access a claim. If known, enter the Claim Number as one of these since it will return an exact match.', and input fields for 'Claim Number:', 'Claimant SSN:', 'Claimant Last Name:', and 'Claimant Date of Birth:'. The 'Claimant SSN' field has a masked format 'XXX-XX-'. The 'Claimant Date of Birth' field has a date picker icon. Below the input fields are 'Search' and 'Reset' buttons.

Quick Reference - CompHub Icons

Quick Start Guide

CompHub is built on top of the Bizagi technical platform that contains certain buttons and icons that may be new to you.

The Datepicker icon allows you to open a calendar to select a date if you would like to do so instead of manually typing it.

CompHub contains a built in PDF viewer to print and/or download documentation straight from the application.

Don't forget to use the Verify Address utility whenever you enter an address!

In order to use the Search function in the electronic process you must first click the Magnifying Glass Icon to begin the search. Don't forget red lines identify required entries!

Tables are commonplace in CompHub. Below you will see an "Attachments" table for supporting documentation. CompHub only accepts PDF attachments (In Order to save a document as PDF quickly, open the file on your PC or Phone and Print as PDF)

- The Plus (+) icon allows you to add a new entry
- The Pen icon allows you to edit an existing entry, given you have highlighted it by clicking the row first
- The Trash Can icon allows you to delete an existing entry, given you have highlighted it by clicking the row first
